Night Sports Concludes

The first Shire of Merredin Night Sports program concluded on Friday, 28 August. For six weeks the members of the youth of Merredin attended sporting sessions every Friday night, where they had a great time learning skills, playing sports, and making new friends. On average, each session of Night Sports drew a crowd of 35 – 45 youth between the ages of 10 – 18.

A range of sports were played over the duration of the program including Basketball, Netball, Football, Soccer and Boxing. The coaches for each of the sports were Merredin locals, with heavy participation within the local football, basketball, and netball clubs. The regular attendees of the workshops loved seeing the coaches out and about in the town and during sporting events on the weekend.

September Council Meeting

The next Ordinary Council Meeting is scheduled to be held on Tuesday, 15 September at 4:00pm. This meeting will be held at the Shire Administration Building on the Cnr of King and Barrack Streets in the Council Chambers. Members of the public are welcome to attend. The Agenda will be available to view on the Shire of Merredin's website on Friday, 11 September. Public questions can be submitted by 2.00pm on the day of the council meeting by completing the form here: <https://www.merredin.wa.gov.au/council-meetings/>

As well as playing sport for the past six weeks, the youth also engaged in life skills workshops which were educational, fun, and interactive. Many of the local organisations such as the police, volunteer fire department, youth officers, school-teachers and athletes gave presentations that were both insightful and engaging for the youth. The topics included alcohol abuse, mental and physical health, lighting fires, athlete journeys, sexting and online grooming. The workshops were a great aid in developing the youths' knowledge and learning.

Week 1 Workshop with Cooper Creek

Water Tower Update

Shire President Julie Flockart is pleased to report a very positive meeting held with the Corridor and Heritage Coordinator from the Public Transport Authority last week.

The strengthening of the water tank will proceed with PTA funding subject to the technical design work and engineering drawings being provided to them for approval.

It is hoped that local companies will have the capability to undertake the necessary fabrication and installation.

This is great news that brings the preservation of this much loved Merredin landmark one step closer.
