Background

A drive-by inspection of the property located at Lot 179 (No 7) Duff Street, Merredin undertaken by the previous EMDS in January 2016 ascertained that unauthorised construction work in the form of a second storey addition had taken place on the premises.

A subsequent Notice issued under the *Building Act 2011* dated 11 January 2016 was sent to the owner of the premises advising that a review of Council records indicated no building permit had been issued and it was the intention of the Shire of Merredin to issue a Building Order requiring the dismantling of the unauthorised construction and asking for any submissions on the proposed building order to be made within a period of 14 days from the receipt of the advice.

Unfortunately with the untimely passing of Mr John Mitchell this matter lapsed until it was reviewed by the current EMDS who reissued the Notice relating to a proposed Building Order on 8 November 2016. The Notice stated that the Shire of Merredin was considering issuing a Building Order under the *Building Act 2011* that would require the unauthorised construction to be dismantled and removed from the site within sixty (60) days from the date of the Building Order being issued. The Notice also stated the owner could make submissions on the proposed building order within a period of 14 days from the receipt of the advice.

On 15 November 2016, the owner attended the Administration and spoke with the EMDS advising that he intended to take the illegal structure down but due to ill health wanted to do this within a 3 month period.

The EMDS wrote to the owner on 22 November 2016 thanking him for coming in to the Shire office and for his verbal commitment to remove the unauthorised construction from the lot in question and weatherproof the existing building situated in the premises within a period of 3 months from the date of the letter.

Comment

To date the required work has not been undertaken and the condition of the unauthorised construction has deteriorated to the point where it is structurally unsound. Rain water is now entering the inside of the dwelling causing further deterioration to the existing structure. The premises has also been vandalised with window panes broken resulting in the premises no longer being weather proof.

By virtue of this the premises is no longer suitable for use for dwelling purposes and should be declared as being unfit for human habitation. The owner should be required to remove the unauthorised construction and to weather proof the dwelling to bring it back to a standard that is suitable for use as a dwelling.

Council needs to be aware that in default of the owner carrying out the required work as specified by the Building Order/Notice it may decide to carry out the required work itself and recoup the associated costs as a debt against the owner of the property.

Purpose of Report

Executive Decision

Legislative Requirement

Background

An application has been received to install a 13m satellite dish, backup generator, acoustic shielding and security fence as part of the INMARSAT facility. The site proposed is adjacent to the existing telephone exchange.

Council previously considered a similar application for Development Approval at its July 2016 meeting where it resolved (CMRef 81806):

“That planning approval be granted to Deighton Pty Ltd for the construction of a 13m satellite dish on Lot 21 Barrack Street, Merredin in accordance with the plans included as Attachment 12.1A and that the CEO be granted delegated authority to negotiate a lease agreement for the site, with the lease agreement being executed prior to completion of the works.”

The revised application has been submitted for Council approval as the original site location of the satellite dish will not meet Telstra’s operational requirements as the Telstra tower blocks the view to the new satellite that the dish has to communicate with.

Comment

The applicant has lodged the application on behalf of Telstra. The dish will form part of a wider network with another dish proposed to be constructed in Gngangara. The network provides satellite communications, tracking of aircraft and aircraft communications and weather information.

The site is zoned "Town Centre" under Local Planning Scheme No. 6 and as such telecommunication is a "D" use under the Scheme which requires Council to exercise its discretion by granting planning approval.

The revised application also incorporates a provision for an onsite backup generator system. Concerns were raised with respect to potential unreasonable noise emissions associated with the operation of the generator in proximity to residences located in the area and the need for the provision of suitable acoustic shielding. Concerns were also raised with respect to the quantity of diesel fuel that will need to be stored on site to service the operation of the generator.

The applicant has supplied an acoustic report of a similar generator facility and associated acoustic shielding enclosure that operates in Victoria Park. The information provided as well as data obtained from Department of Environment Regulation (DER) Noise Officers suggests that the installation of a generator and appropriate acoustic shielding on the proposed location will meet the assigned noise level requirements of the *Environmental Protection (Noise) Regulations 1997*.

Information provided by the applicant with respect to the proposed storage of diesel fuel on site confirms it will not exceed thresholds specified by the DER or the Explosive and Dangerous Goods Division and as such does not require any additional approvals.

Officer's Recommendation

1. That planning approval be granted to Deighton Pty Ltd for the construction of a 13m satellite dish, backup generator, acoustic shielding and security fence on Lot 200 (No 108) Barrack Street, Merredin in accordance with the plans included as Attachment 12.2A, subject to:
 1. compliance with the *Environmental Protection (Noise) Regulations 1997*;
 2. the backup generator being provided with physical mitigation measures aimed at reducing vibration related emissions;
 3. the backup generator being fitted with acoustic shielding that will ensure compliance with assigned noise levels specified by the *Environmental Protection (Noise) Regulations 1997*;
 4. the cost of any monitoring requiring to be undertaken as a result of any noise or vibration complaint being lodged with the Shire of Merredin relating to the operation of the backup generator being borne by the applicant; and

- 5. an application for a Building Permit for the proposed structures being submitted to the Shire of Merredin and being approved before any work commences on site.**

12.3 Lot 165 (No 22) Coronation Street, Merredin – CEACA Inc Housing Development – Application for Development Approval

Purpose of Report

Executive Decision

Legislative Requirement

Background

An application for Development Approval (DA) has been received for the development of 28 aged person's dwellings. The proposal has been lodged by Jeff Thierfelder, the Principal of Edgefield Projects on behalf of CEACA Inc. The site selected for the development is located on the western part of the primary school site in the street block bounded by Fifth, Coronation, Bates and Duff Streets, Merredin.

The Shire of Merredin has been awarded Royalties for Regions funding on behalf of the CEACA Inc for land assembly, servicing, and construction of 75 Independent Living Units (ILUs) for seniors on 13 sites (in 11 different Wheatbelt Shires). The purpose of the Stage 2 CEACA Seniors Housing Project is to construct aged-appropriate houses that will deliver the following outcomes:

1. retention of older people in rural communities through the provision of appropriate and affordable housing options;
2. economic and employment growth via the construction and management of assets and provision of aged care services;
3. creation of an asset base and cash flow that can be leveraged for the ongoing growth of community housing in the region; and
4. efficient delivery of health and support services to the ageing community.

The purpose and outcomes are aligned with the objectives of Royalties for Regions funding and the Ageing in the Bush Initiative.

Housing will be developed in accordance with the recommendation of the Central East Aged Care Report, the Wheatbelt Aged Support and Care Solution Report and the State-Wide Ageing in the Bush Report, with all houses:

1. developed in clusters that are centrally located near key services and facilities including health centres, shops and community services;
2. built to contemporary universal friendly design. All housing will meet the Gold or Platinum level requirements of the Liveable Housing Design Requirements;
3. built to feature Dementia Enabling Environment Principles; and
4. connected to the Town CBD (or Main Street) by age friendly pathways.

Figure 1 shows the location of the proposed development in respect to the Merredin townsite zoning. The subject land is currently designated as 'Public Purposes – Primary School'. The Figure shows the land on the north and west is zoned Residential, whilst the land to the south is zoned Commercial. The Commercial land facing the proposed site is currently developed with a dwelling and a bowling green.

Figure 2 shows an aerial photograph of the area. The land (Lot 165 on Plan 229842, 22 Coronation Street) is currently Crown Land reserved for the purpose of 'Aged care and community purposes' with the Shire as the 'Primary Interest Holder'.

FIGURE 2 – AERIAL PHOTOGRAPH OF SUBJECT LAND

Proposed Development

The development will occupy approximately 1.12 hectares (calculated) of the 2.35 hectare old school site. The former school buildings will be used for community uses.

The development will comply with the Residential R30 standards - consistent with the surrounding residential densities permitted.

The mostly-flat site is currently being used as a park for passive recreational purposes and contains many mature gum trees. The development proposal has sought to retain as many of these trees as possible while still achieving the target density and a workable community layout.

The master plan endeavoured to create a central communal open space that could be used by residents for gardening, bbqs and gatherings. This central space connected to the obvious entrance to the cluster of existing school buildings on site that may be used for community uses in the future. This master plan was the basis for further detailed design work leading up to the current proposal.

The two key priorities in setting out the site layout were retaining as many trees on site as possible (while still attaining the target yield) and creating positive and attractive street / communal open space frontages. To this end, all dwellings are pulled at least 4m from external boundaries, which helps retain a number of the significant gum trees that ring the site.

In addition, the rear driveway access and accommodating unit layouts facilitate the 'front facade' (where visitors would enter the dwelling) facing either the external streets or the central communal spaces. This helps to create an inviting and attractive system of external and internal streetscapes not dominated by garages and carports. The Master Plan Concept shows no dwelling with a carport with direct access onto a public road.

The proposed system of pathways and communal spaces links up key destinations such as the community garden and entry to the old school buildings (that may house communal functions in future) and facilitates convenient pedestrian movement in the key cardinal directions.

Figure 3 provides a copy of the Master Plan Concept contained in the DA.

FIGURE 3 – MASTER PLAN CONCEPT

Source: Edgefield Projects, May 2017

All dwellings are single storey and modest in size. There are five distinct types designed to respond to four criteria: level of universal access, vehicle access direction, visitor entry direction, and north orientation of outdoor living area. The five unit types have been designed so that they can be used on all 13 CEACA sites, and not all types are used on each individual site.

All dwellings are designed according to the universal access requirements contained within the Liveable Housing Design Guidelines, and achieve either Gold or Platinum standard.

Below is a summary of the unit types and objectives, as well as the number proposed for the Merredin site:

Unit Type	FECA Size (m ²)	Number Proposed	Universal Access	Vehicle Access	Front Door	Outdoor Living
A	88.8	14	Gold	South	North	North
A	90.7	6	Platinum	South	North	North
B	88.4	0	Gold	South	South	North
B	90.7	0	Platinum	South	South	North
D	85.8	8	Gold	North	South	North
TOTAL		28				

Source: Edgefield Projects, 2017

All units are designed as 2 bedroom dwellings. The Gold standard units (A1, B1, D1) offer a full bathroom, a separate toilet room, and a full laundry room (see inset on floor plans for an alternative wet area configuration that includes a study nook, separate toilet room, laundry room, but no toilet in the main bathroom). The Platinum standard units (A2, B2) allow for a full bathroom plus an additional toilet in the laundry room.

The Gold standard units are designed to be able to attach to another like unit or be freestanding. The Platinum standard units are always freestanding. All units allow for a generous private courtyard accessed off the lounge room, as well as a single carport and external store room. Where site conditions allow, the courtyards are oriented to the north to allow for natural light and passive winter heating. All units are afforded a fenced-in private yard to screen clothes drying racks and bins.

The built form, materials and colour palettes to be used in the development will be designed to fit in harmoniously with the surrounding site context, taking cues from the traditional residential buildings by using gable and hip roofs and street-facing verandahs. The detailing and colour palettes, however, offer a more contemporary and fresh approach that refer to more modern design trends.

The report accompanying the DA provides more details of building types, facades, elevations, thermal rating measures and colours to be used. Also included is a comprehensive listing of proposed materials and the principles for their application. These materials include fencing types, landscaping edging types, irrigation types, deciduous and evergreen tree types and fruiting and feature tree types to be used in the development. Although these options are provided, the specific types have not been allocated to specific areas yet.

The specific trees to be retained or removed have not yet been detailed in the application.

Comment

The proposed development conforms to the R30 Residential Design Codes (RCodes) without the aged care dispensations on density. The proposal complies with setbacks, site area per dwelling, open space, building heights, parking and landscaping.

Specific fencing types facing public streets need to be confirmed as part of the conditions of approval.

The report states that all the urban services are available including water, sewerage, power, drainage and telecommunications.

The applicant will separately apply for demolition permits to allow for the proposed works.

In light of the above information, the applicant believes that the proposed development would make a positive contribution to the physical and social infrastructure of Merredin, and would warrant favourable consideration and approval for the following reasons:

1. the proposal satisfies the need for Aged Persons housing identified by several strategic reports (Central East Aged Care Report, Wheatbelt Aged Support and Care Solution Report, State Wide Ageing in the Bush Report); and
2. the proposed development makes use of an under-utilised public reserve, and creates demand for future use of under-utilised adjacent former school buildings for community purposes.

The proposed development meets the development requirements of the Residential R30 zone, and is therefore consistent with other such Aged Persons Housing projects in Western Australia.

1. The site is well serviced by all relevant services (power, water, sewer, telecom);
2. The site is within easy walking distance of community services such as daily shopping, library, Council offices, restaurants; and
3. The increased population in the townsite will support the commercial viability of local businesses and increase the vitality of the town.

It is appropriate to initiate amendments to the Scheme and Strategy to reflect Council's intentions for the primary school site.

Policy Implications

Nil

Statutory Implications

The subject site is currently listed as a Local Scheme Reserve for 'Public Purposes - Primary School' under the Shire of Merredin's Local Planning Scheme 6 (the Scheme). As such, the current Aged Persons' accommodation proposal is outside of the original intended purpose of reserve. The Shire of Merredin must therefore determine this application based on the considerations listed in the deemed provisions.

Local Scheme Reserves are not included in the Scheme's Zoning Table (Table 1). The Scheme provides for use and development in a local reserve as follows (extract from the Scheme);

"3.4.1 A person must not –

(a) use a Local Reserve; or

(b) commence or carry out development on a Local Reserve, without first having obtained planning approval under Part 9 of the Scheme.

3.4.2 In determining an application for planning approval the local government is to have due regard to -

(a) the matters set out in Part 10.2, and;

(b) the ultimate purpose intended for the Reserve.

3.4.3 In the case of land reserved for the purposes of a public authority, the local government is to consult with that authority before determining an application for planning approval."

Council has considered the ultimate purpose of the Reserve as being for aged care accommodation and community uses. The current Crown Reserve designation reflects this intention. The matters contained in Part 10.2 of the Scheme (now changed to clause 67 of the deemed provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015*) have been considered by Council.

In the case of clause 3.4.3 above, the land is reserved for the purpose of the Shire of Merredin and therefore this determination represents the required consultation.

It is appropriate that Council initiates a Scheme Amendment to reflect the current proposal by rezoning the old school site to a more appropriate zone.

Strategic Implications

The WA Planning Commission endorsed the Council's Local Planning Strategy (the Strategy) in 2007. Figure 4 provides an extract from the Strategy Map where the diagonal stripes show the strategy recommendations. The other areas remain unchanged from the Scheme.

Background

The Statement of Financial Activity is attached for Council's information.

Comment

Operating Income and Expenditure is mainly consistent with Council's YTD Budget, with Expenditure being 8% lower than expected for this period. A detailed report is attached for Council's consideration.

Operating Expenditure

All programs except Other Property & Services are under expended and outside the allowable variance.

Operating Income

All programs are within the allowable variance with the exception of Transport for this period of time.

Capital Expenditure

A detailed look at capital expenditure can be found in Note 13.

Others

Councillors may note the discrepancies between Financial Activity (PR) and Note 3, and the Trust Bank Note 4 against the Trust Summary on Note 12.

These both currently show a \$417,352.69 variance and this relates to invoices raised on behalf of CEACA for site works on Stage I and Stage II. Once the invoices are paid this variance will not be reported.

14.3 Differential Rates 2017/18

Purpose of Report

Executive Decision

Legislative Requirement

Background

Local governments are empowered to impose differential general rates subject to compliance with Section 6.33 of the *Local Government Act 1995*.

Differential rating provides Council with flexibility in the level of rates being raised from specifically identified properties or groups of properties within the community. It is common for Councils to base differential rating for properties on Town Planning Scheme zonings however other criteria such as land use may be used.

Once a budget deficiency has been determined, and after taking into consideration the objectives of the Strategic Community Plan and Corporate Business Plan, a rating strategy and proposed differential general rates in the dollar can be determined. Rates should not be increased by a fixed amount without due consideration of the deficiency. Unless Ministerial approval is given, the amount expected to be raised through all types of local government rates must be within 90% to 110% of the deficiency of the budget (Section 6.34). This acts to limit the amount that may be raised by rates, but only in proportion to the expenditure requirement determined by the local government, and not in the manner of a set cap on the maximum level of income which can be raised through rates.

Council is required to give local public notice prior to imposing any differential general rates, or any minimum payment applying to a differential rate category, for a minimum of 21 days. Council does, however, have the discretion to vary the rate in the dollar and minimum rate during its budget deliberations without having to re-advertise the changes.

Before local public notice is given, proposed rates should be determined by Council, along with the objects and reasons providing justification for each differential general rate or minimum payment. It is important that these provide sufficient supporting information to electors and ratepayers or local governments may be asked to re-advertise by the Minister for Local Government.

Utilising the above scenario, rates modelling indicates a 3% overall increase in rate revenue compared to the 2016/17 budgeted rate income.

Currently, differential rating does not apply to properties utilising Gross Rental Valuations.

The table of rates (Unimproved Valuations) proposed for the 2017/18 financial year is set out below:

Unimproved Value	Minimum	Rate in \$
UV1 – Rural	\$1,040	0.020467
UV2 – Urban Rural	\$1,040	0.029149
UV3 – Mining	\$200	0.040770
UV4 - Special Zone Wind Farm	\$1,040	0.040770
UV5 – Special Use Airstrip	\$1,040	0.040770
UV6 – Merredin Power	\$1,040	0.040770

Category	Rate in the \$		Minimum Rate		Rateable Valuations	Rates Revenue (Inc Mins)	Estimated Revenue (Inc Mins) Minimums

Total					87,006,734	1,858,390	1,985,280

Comment

For the purpose of budget discussions, the 2016/17 Budget rates modelling has been calculated using current valuations received from Landgate Valuation Services. It is pertinent to note that new valuations may be received for the 2017/18 financial year for Unimproved Valued properties.

Statutory Implications

Section 6.33 of the *Local Government Act 1995* allows for local governments to differentially rate properties.

Section 6.35 of the *Local Government Act 1995* states:

6.35. Minimum payment

- (1) *Subject to this section, a local government may impose on any rateable land in its district a minimum payment which is greater than the general rate which would otherwise be payable on that land.*
- (2) *A minimum payment is to be a general minimum but, subject to subsection (3), a lesser minimum may be imposed in respect of any portion of the district.*
- (3) *In applying subsection (2) the local government is to ensure the general minimum is imposed on not less than —*
 - (a) *50% of the total number of separately rated properties in the district; or*
 - (b) *50% of the number of properties in each category referred to in subsection (6),**on which a minimum payment is imposed.*
- (4) *A minimum payment is not to be imposed on more than the prescribed percentage of —*
 - (a) *the number of separately rated properties in the district; or*
 - (b) *the number of properties in each category referred to in subsection (6),**unless the general minimum does not exceed the prescribed amount.*
- (5) *If a local government imposes a differential general rate on any land on the basis that the land is vacant land it may, with the approval of the Minister, impose a minimum payment in a manner that does not comply with subsections (2), (3) and (4) for that land.*

- (6) For the purposes of this section a minimum payment is to be applied separately, in accordance with the principles set forth in subsections (2), (3) and (4) in respect of each of the following categories —
- (a) to land rated on gross rental value; and
 - (b) to land rated on unimproved value; and
 - (c) to each differential rating category where a differential general rate is imposed.

Section 53 of the *Local Government (Financial Management) Regulations 1996* sets the Prescribed Amount in relation to Minimums:

53. Amount prescribed for minimum payment (Act s. 6.35(4))

The amount prescribed for the purposes of section 6.35(4) is \$200.

 Legislative Requirement

Background

The IPR planning and monitoring cycle is continuous. The planning cycle requires all local governments to undertake a major Strategic Review in the first four years. This meant the Shire of Merredin’s first Strategic Review was undertaken in 2015/16. Council adopted the reviewed IPR Suite of Plans to include the:

1. Corporate Business Plan 2015/16 – 2018/19;
2. Strategic Community Plan 2015/16-2025/26;
3. Strategic Resource Plan 2016-2031; and
4. Workforce Plan 2015/16 – 2018/19.

Comment

With the implementation of the suite of plans, monitoring is undertaken through the IPR Process Plan outlining Merredin’s Baseline Report to include:

1. Vision Elements;
2. Strategic Goals;
3. Key Priorities;
4. Strategies; and
5. Actions.

The Corporate Business Plan (CBP) Annual Review – May 2017 is presented to Council for consideration.

The review process identified that the following actions (extracted from the CBP) be deleted from the Key Priorities:

Vision Element		Developing
Strategic Goal		<i>The population and economic base is expanding sustainably</i>
Key Priority		Economic Development
SP.D1.1	Strategy Implement recommendations identified in the 'Growing Our Community' An Economic Development and Implementation Strategy and Central East Sub-Regional Economic Strategy

Background

Council adopted Policy 3.19 Community Funding at its March 2012 meeting (CMRef 30277) which coordinates Council's response to community requests for financial support. It ensures that Shire funding resources are allocated in a way that is transparent, compliant and equitable and that funded projects further the aims and objectives of the Shire and represent responsible use of public monies.

The aims of the Community Funding Program are:

1. to encourage the development of services, facilities and events that meet identified community needs;
2. to promote active participation of local residents in community initiatives and the development of skills, knowledge and opportunities;
3. to provide assistance to the community to develop initiatives and services that support the Shire of Merredin's own objectives; and
4. to enhance the image of the Shire of Merredin within the community.

The following groups are eligible for funding support:

1. incorporated non-for-profit organisations based within the Shire of Merredin;

2. incorporated non-for-profit organisations undertaking projects for the benefits of the Shire of Merredin’s residents and whose primary aim is the improvement of the quality of life of the community; and
3. non-incorporated community groups under the auspices of an incorporated organisation.

Background

At its July 2016 Meeting Council resolved behind closed doors (CMRef 81819):

“That Council accepts the non-conforming tender submitted by Belgravia Leisure and enters into a two-year agreement for the provision of contract management of the Merredin Regional Community and Leisure Centre commencing in the 2016/17 financial year on a date to be determined”.

The tender submitted by Belgravia Leisure indicated a proposal to develop a gymnasium within the MRCLC. Consistent with its tender the proposed development was also reflected in the submitted Management Plan 2016/17. Belgravia Leisure corresponded with Council requesting consideration and costings for a 24/7 access gymnasium which was presented to Council.

At its November 2016 Meeting Council considered the matter where it resolved behind closed doors that the matter lay on the table (CMRef 81874). Upon receiving legal advice on whether Council is constrained in approving a gymnasium at the MRCLC the matter was again considered by Council at its December 2016 Meeting where it resolved behind closed doors (CMRef 81900):

That:

- 1. the legal advice stating Council is not constrained in approving the operation of a 24/7 gym at the Merredin Regional Community and Leisure Centre be noted;**
- 2. Belgravia Leisure be requested to prepare a business case for the operation of a 24/7 gym by 31 May 2017; and**
- 3. the operators of Merredin Squash and Fitness be advised accordingly.**

Comment

Belgravia Leisure has completed the MRCLC Fitness Centre Business Case Proposal and Project Plan, provided in Attachment 14.6A. The proposal includes an outline of the provision of service, catchment analysis, financial forecast, access control and security and key milestones. In addition the proposal gymnasium layout and equipment lease costs are outlined. The business case also states the results of the community expression of interest campaign run by Belgravia Leisure in March 2017.

Council has a number of options to consider:

1. it can resolve to approve the proposal, construct the partition wall and bear the risk should the agreement with Belgravia Leisure not proceed beyond the initial two year term;
2. it can approve the proposal in principle but defer its commencement until the agreement with Belgravia Leisure is extended, should it be extended;
3. it can permit Belgravia Leisure undertaking the proposal in its own right; or
4. a combination of the above.

Directorate: Community Development
Activity: Recreation Services
Current Staff: Out-Sourced
Focus Area: Alternative Labour Sources
Strategy Code: ALS2
Strategy: Undertake service reviews across the organisation to identify the most effective and efficient method to deliver services.
Implications: If the service was returned in-house the Shire would need to consider retaining the contractor's staff or recruit sufficient staff to manage and operate the facility.

Risk Implications

The possible risks associated are as follows:

1. the contractor is unable to deliver the operational action plan specifically associated with the gym service;
2. the initial agreement with Belgravia Leisure is not extended beyond the initial two years; and
3. financial risk if the community does not take up membership.

Financial Implications

Should the project proceed it is proposed that the \$30,000 to construct the partition wall be funded through the Recreational Redevelopment Reserve.

If at the end of the two-year agreement with Belgravia Leisure the management of the MRCLC is reverted back "in-house", the Shire of Merredin will be responsible for the lease costs and maintenance of the gymnasium. This equates to \$31,332 per annum until January 2020. The annual expenditure would need to be accommodated in future budgets and will be included in Belgravia's financial forecasting and reporting.

- 2. Belgravia Leisure be permitted to undertake the proposal in its own right prior to the expiry of the current agreement, should it wish to do so.**
